### Trail Running

This season, we've redesigned our collection of trail running shorts to focus on fit and form, while continuing to meet the specific needs of big days, regular days, mountain days or the times when you need one pair of shorts to do it all.

# About Us Page

## Inspiration

When we were reflected to our values. We believe that sustainable design can be just as elegant and as modern as conventional clothing. We're inspired by the natural world and the power of design to create a world that is sustainable by using fashion as a force for good.

## Craft

We use organic and natural fibers, such as organic cotton, linen, and wool, that are grown without harmful pesticides and chemicals. Our materials are biodegradable, fair, and long-lasting. We also use a carbon footprint calculator as a part of our process to ensure minimal greenhouse gas emissions and to help us reduce our carbon footprint.

## Design

Our clothing is designed to be versatile and timeless, perfect for any occasion. We create pieces that are designed to be worn, loved, and passed down. We create pieces that are designed to be worn, loved, and passed down.

## Sustainability

We use sustainable techniques, from organic fibers and eco-friendly packaging to minimize our environmental footprint. And because we believe in transparency, we share our sustainability and ethical practices.
